## Qwest Choice™ 2-Line Business

Qwest Choice Business and Qwest Choice 2-Line Business packages include one or two business lines, along with wire maintenance, select forwarding features and your choice of five of our most popular features. You may choose the features best suited to your business from our list of most-wanted features.

The first five you select are included in the package – additional features may be purchased at one fixed price for each (except where the tariff is lower, in which case the tariff will be charged). If you choose more than five products, Qwest will include the highest priced in your original package.

You can change your mix of features at any time without a set-up fee.

You may purchase as many of these simple, flexible, cost effective packages as you need without signing a term commitment.
