

EVERYTHING YOU NEED. SIMPLE PER-SEAT PRICING. KEEPING THINGS EASY.

Telesphere Complete™

■ NOW YOU CAN:

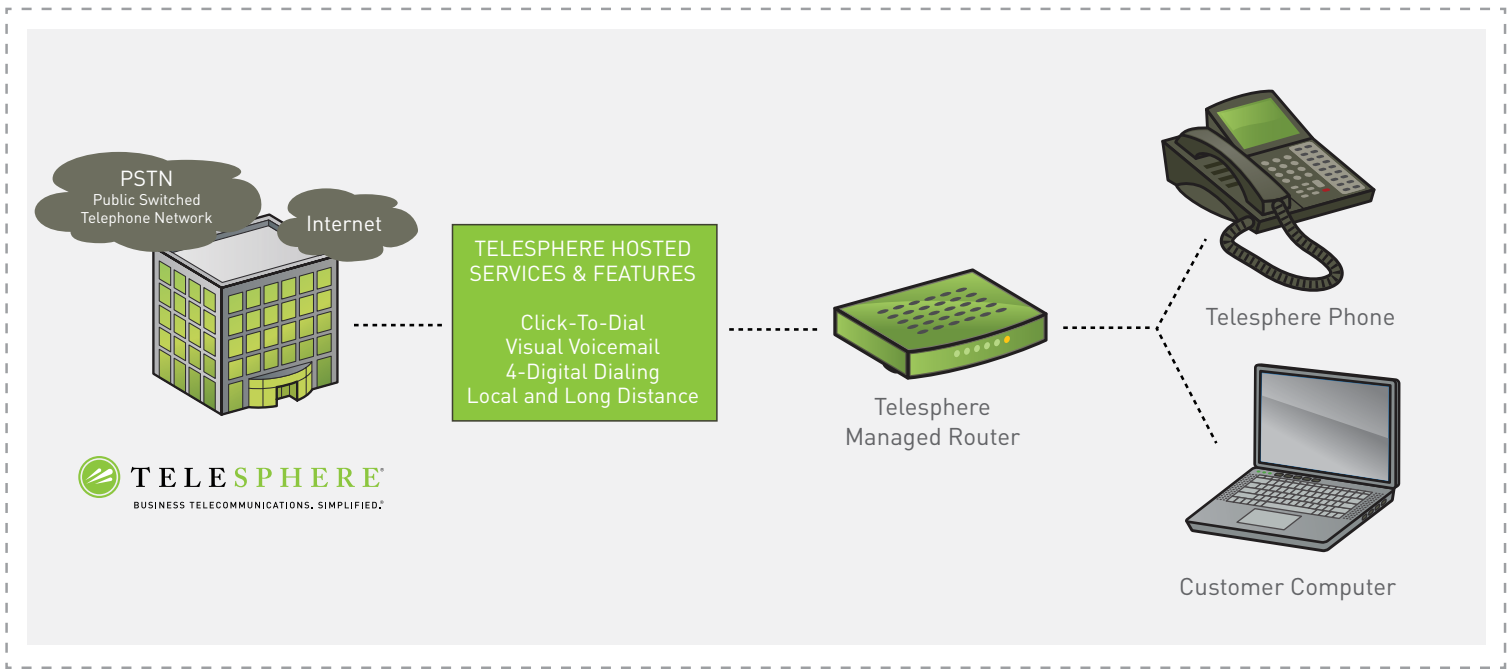

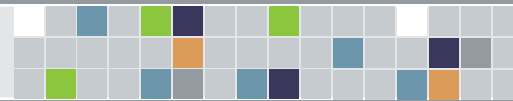

- » **Get hassle-free connectivity from a single provider** – Reliable long distance, unlimited Internet access and a dynamically allocated private IP connection, all from one provider, offer a powerful simplicity you can appreciate—one bill, full accountability and no surprises.
- » **Invest in growing your business** – With no expensive equipment purchases and no maintenance contracts required, you can allocate more capital towards expanding your business.
- » **Master the art of mobility** – Advanced features like simultaneous ring, call forwarding and remote call control allow you to conduct business as usual, regardless of whether you're away from your desk.
- » **Never miss a call, even in disasters or outages** – A secure, power-protected environment and built-in redundancy prevent any interruption to your service, so your customers can still reach you at all your designated locations.
- » **Manage your business telecom remotely** – Use our anywhere web interface, user-friendly tools and flexible controls to make instant changes to your service.

■ Telesphere Complete is the all-in-one smart voice and data solution that simplifies the way you connect for business. Our fully hosted PBX technology comes complete with T-1 connection, business-class IP phones and installation, bundling turnkey phone and Internet service, the latest in user and system features and 24x7 support. Best of all, it's scalable to meet your changing needs, packing unlimited growth potential at a predictable cost.
