

OUR FEATURES...YOUR CONNECTION...ONE UNIFIED SOLUTION

Telesphere Fusion™

■ NOW YOU CAN:

- » **Avoid contract termination fees** – by using your existing Internet or data connection
- » **Always stay connected to your business** – through advanced features like voicemail-to-email, simultaneous ring, and remote office
- » **Supercharge your efficiency** – by integrating your computer, desk phone, and mobile phone, allowing click-to-dial, desk-to-mobile call swap, and more
- » **Never miss a call, even in disasters or outages** –with Telesphere's redundancy, your customers can still reach your voicemail, home, mobile phones, or other locations of your choice
- » **Make your business look larger** – with Auto Attendant, timed greetings, and call centers
- » **Connect multiple offices as if under one roof** – with nationwide 4-digit dialing

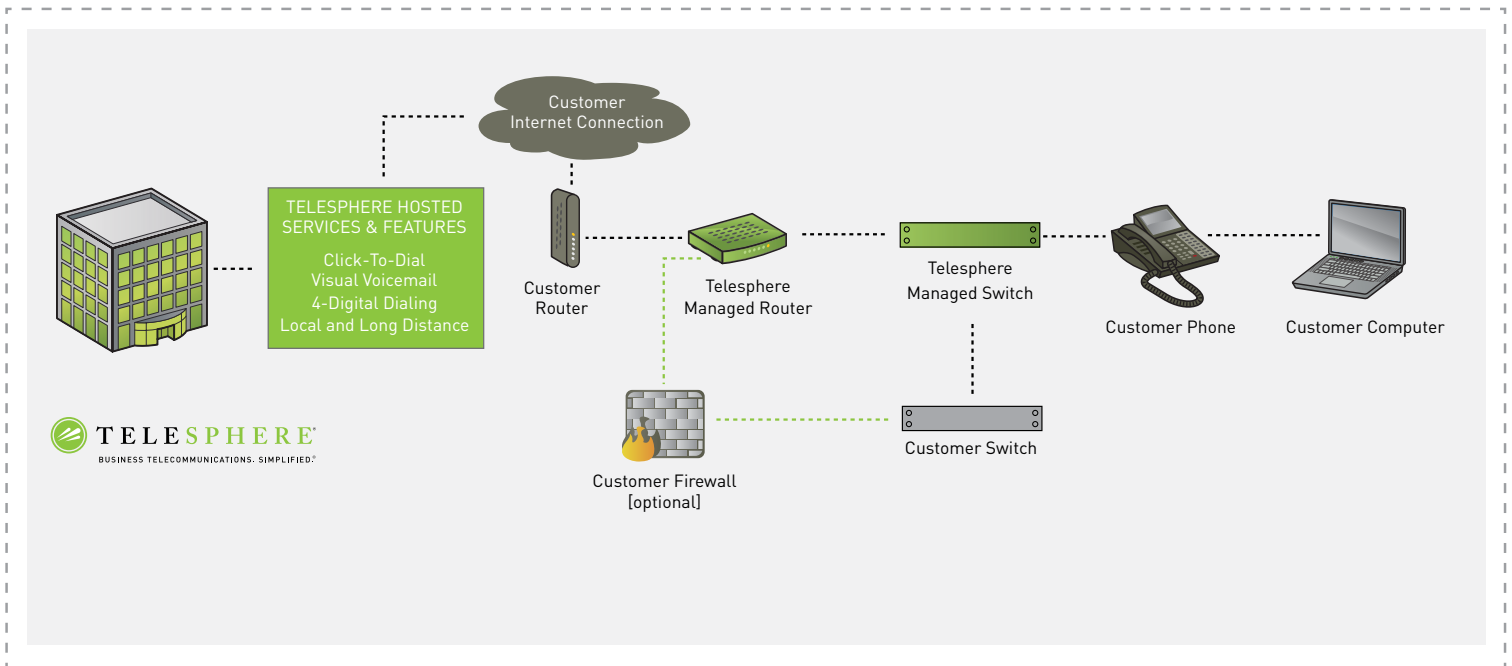

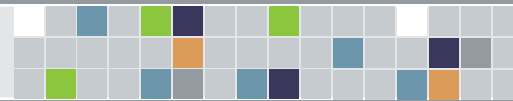

- Telesphere now offers Telesphere Fusion, allowing you to access the power of Telesphere's hosted telephony platform through your current Internet connection. Now you can always stay on the cutting edge of telecom features and functionality, while maintaining your current contracts and circuits.

In these challenging economic times, your business needs you more than ever. With Telesphere Fusion, Telesphere manages your telecommunications from start to finish, allowing you to do what you do best – run your business.
