

Time and Attendance Management Option

for IVX® Presence Management

Gives “time management”
a whole new meaning.

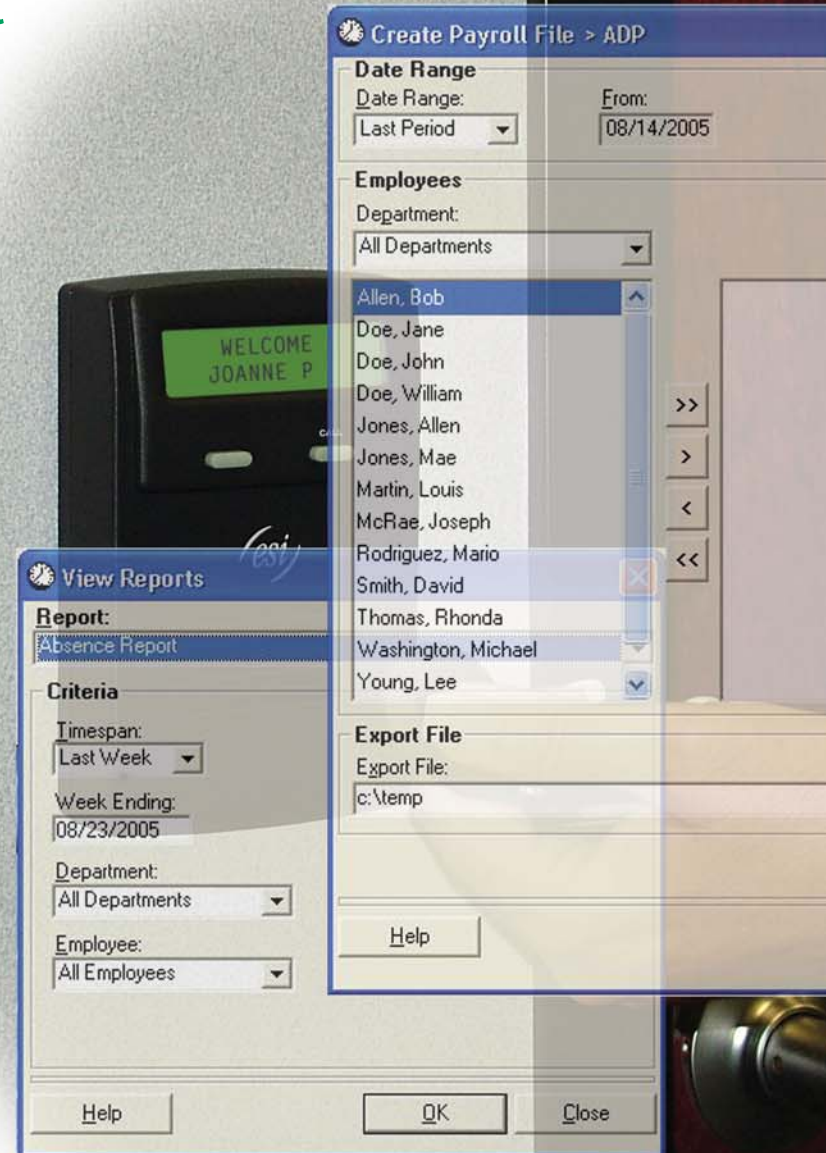

Tracking employees' time and attendance has always been a challenge. Keeping accurate paper records requires the time of both employees and management to validate and compile for payroll purposes.

Now, with the **Time and Attendance Management Option** for IVX Presence Management, you can gain control of your company's most precious asset: your employees' time.

Once your business deploys ESI's RFID-powered **IVX Presence Management**® on an ESI IVX phone system, the Time and Attendance Management Option gives you the benefits of combining an automated time and tracking system with the proven technology of electronic employee cards and fobs.

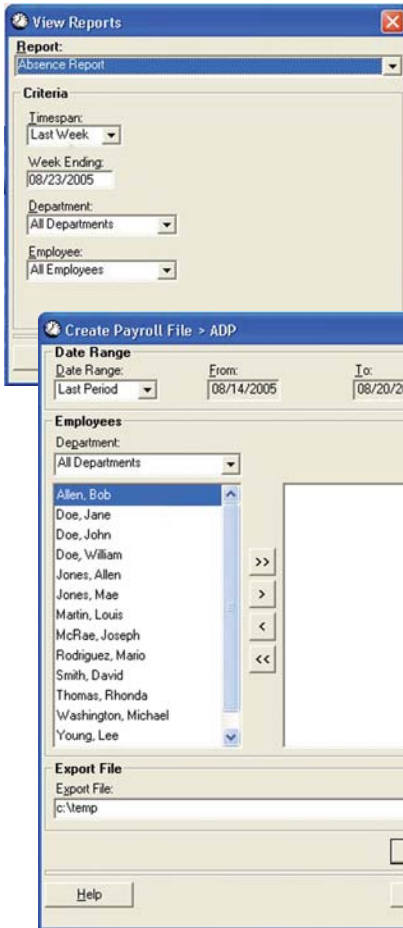

The Time and Attendance Management Option is ideal for companies wanting an easy-to-use time and attendance system at an attractive price. Use it to:

- **Streamline your payroll process.**
 - Eliminate time sheet collection.
 - End manual-entry errors.
 - Automate the entry of data to your payroll system (such as *QuickBooks*® and ADP®).
- **Create an accurate employee time-tracking system.**
 - Generate reports that quickly provide information about employee time.
 - Introduce a self-enforcing or compliance initiative for employee time.
 - Eliminate debate, manipulation, and misuse of a paper or “honor” system.
 - Give employees the ability to call up their “timecards” and verify information.

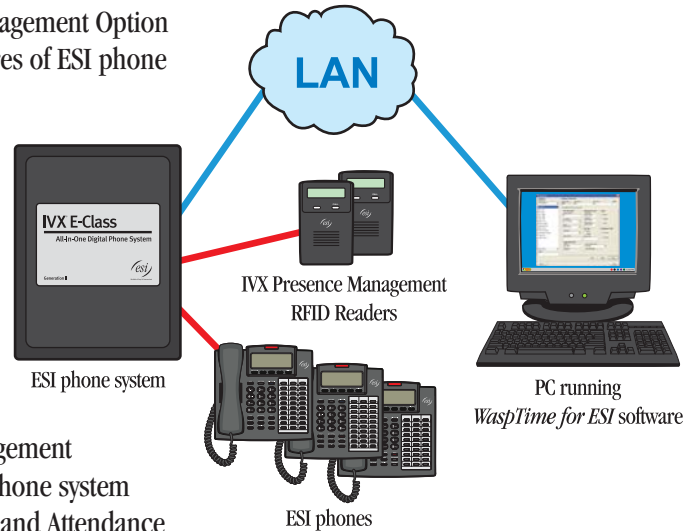

We Make It Easy To Communicate

How the Time and Attendance Management Option works for you.

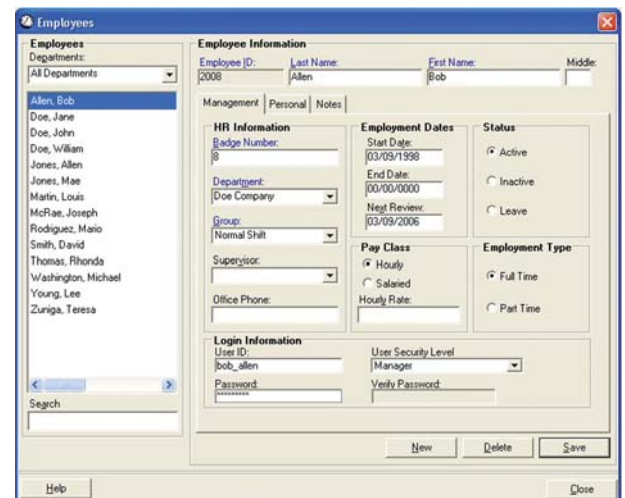

The Time and Attendance Management Option combines the innovative features of ESI phone systems** with the unique advantages of integrated IVX Presence Management and a proven software platform (*WaspTime*[™]) for employee time management.

When each employee waves his or her electronic key past an IVX Presence Management RFID Reader, the ESI phone system sends data to the Time and Attendance Management Option. Now, the times and dates of all authorized employees' entries and exits instantly become part of a record you can save, print, and use with your payroll system.

With their many integrated features and ease-of-use, ESI phone systems greatly enhance your business communications. And only an ESI phone system with IVX Presence Management and the Time and Attendance Management Option can improve **both** your communications **and** your ability to manage employee time to the maximum benefit of your business.

To learn more about IVX Presence Management, consult your Certified ESI Reseller or visit www.esiivx.com/presence.

To learn more about the Time and Management Option, visit www.waspbarcode.com/ESI.

IVX Presence Management and the Time and Management Option work with ESI's IVX X-Class, IVX E-Class Generation II, and IVX S-Class Generation II digital phone systems.

* See the IVX Presence Management brochure, ESI document 0450-0812.

** IVX system requires optional Network Services Processor (NSP) for LAN access to the Time and Management Option. (If your business uses ESI's V/P unified messaging application, your system already has an installed NSP)
