

Teletronics Receives Top Industry Award from Clearly Communications

TUSCON, AZ — May 8, 2018 — Teletronics, a leading unified communications provider, announced today that the Teletronics received Clearlyfly's top award at the 18th Annual TAG Convention held in Rancho Bernardo, California in April. Technology Assurance Group (TAG) is an international organization of independently owned unified communications companies in the United States and Canada. Clearlyfly selected Teletronics as the winner of the Clearlyfly Clear Choice Award for Customer Satisfaction and SIP Deployment. Teletronics accepted the award that included Clearlyfly donating \$500 on behalf of Teletronics to the Wounded Warrior Project.

After 2017 Clearlyfly analyzed a great deal of information including overall customer satisfaction, their partners ability to coordinate timely ports, their ability to move, add or install a new system with minimal to zero down time, and how frequently the partners were able to coordinate all of these tasks seamlessly. The result was very high customer satisfaction and so they chose to award their top partners. "The importance placed on one's ability to communicate over today's IT

infrastructure couldn't be more critical to a business, and we are proud to say these partners performed excellent", said Sam Johnson, Channel Account Manager for Clearlyfly. "Coincidentally a majority of award winners were also members of TAG." The award was received by Andy Schneider, President of Teletronics. "We are honored to accept this award. Our Teletronics always strives to be on the leading edge of technology," said Mr. Schneider. "Clearlyfly provides industry leading Session Initiated Protocol (SIP) trunking to our customers and we're proud to be their business partner."

ABOUT TELETRONICS INFORMATION SYSTEMS, INC.

ABOUT CLEARFLY

Clearlyfly Communications is a voice services and broadband provider serving a majority of the United States with a primary focus on solutions for small and medium-size businesses. At the core of Clearlyfly's value proposition is a suite of services comprising scalable, wire-line broadband and a traditional business phone line replacement service. Clearlyfly's go to market strategy is founded upon the valuable relationships with Voice and Data Integrators such as TAG Members. Clearlyfly recognizes and respects the reputation of the Integrator because it is the most important factor relative to the continued deployment and support of our SIP and data services.
