

# CLEARFLY Features

## A Clear Choice

### On-the-Fly Trunk Adjustments

- Running a marketing campaign and expect a higher than normal call volume?
- Is your business seasonal?

Clearfly allows you to make immediate changes to your trunk count, Up or Down, as your business requirements change.

### Burstable Trunks

- Busy signals may result in lost opportunity. **Clearfly Bursting will help prevent those lost opportunities.**
- Are you sure you have the right quantity of Trunks? **Clearfly Bursting will help you determine your exact needs.**

Bursting provides you with two (2) stand-by SIP Trunks that will only become active if all current trunks are in use.

### SMS & MMS Messaging

- In today's world leaving a voicemail is being replace with sending a "Text". If your phone numbers don't support text you may be missing opportunities. **Clearfly Messaging will help prevent those lost opportunities.**

Clearfly Messaging supports both Inbound and Outbound SMS and MMS messages

Inbound messages are forwarded to up to 10 emails that are assigned to the message enabled number.

Outbound messages can be sent from the Clearfly portal or by clicking the "Quick Reply" link on the inbound message.

### Personalized Forwarding

- Working remotely and want to forward your personal DID to your Mobile phone. **Set Unconditional Forward**
- Bad Weather is brewing, and you are concerned that your customers won't be able to get hold of you if something happens to the phone system or there is a power outage. **Set Unavailable Forward**

Clearfly's Personalized Forwarding allows you to control how callers get hold of you on your personal DID regardless if the Phone System, Power, or Internet is up or not.
