Benefits - Smart Reasons to Switch to Clearfly SIP Trunks

- **Save Money** - Enjoy the cost savings by using SIP versus older outdated technologies
- **Save Time** - Dedicated and knowledgeable Clearfly technicians and customer support specialists assure rapid deployment.
- **Simplify** - Experience the efficiency of managing your account via the Clearfly Portal. See and adjust your products and services, open tickets, pay your invoices, control important aspects of your dial tone such as International Calling, Unavailable Forwards, Bursting and more...
- **Protect your Investment** - Preserve your existing capabilities via seamless integration with your existing SIP IP PBX system.
- **Grow Your Business** - When you grow, adding more SIP Trunks is easy, and it can happen immediately, not weeks. SIP Trunks can be installed and turned up remotely so you do not have to slow down. In slow seasons, immediately decrease your SIP Trunk counts.
- **Assurance** - Clearfly offers a 30 day penalty free cancellation because we are confident in our service.
- **Bursting** – For \$20 one time and .25 per call you can assure your customers don't get a busy signal
- **cFax** – Utilizing secure and stable HTTPS delivery methods fax from your desktop, Fax Machine or both.
- **Flexible** – Teletronics and Clearfly custom build solutions with you and your business needs in mind.

Enjoy The Benefits Of Clearfly SIP Technology Today!
