INTEGRATE WITH GRANDSTREAM SOLUTIONS

GDS Series
Manage and control facility access with the press of a button while creating a streaming audio/video intercom

GSC Series
View live video feeds from cameras and receive alerts when security events occur

GWN Series
Easily connect the GXV Series to Wi-Fi in the office, at home or on the road

UCM6300 Series
Create a powerful network for your GXV Series deployment and provide a platform for meetings.
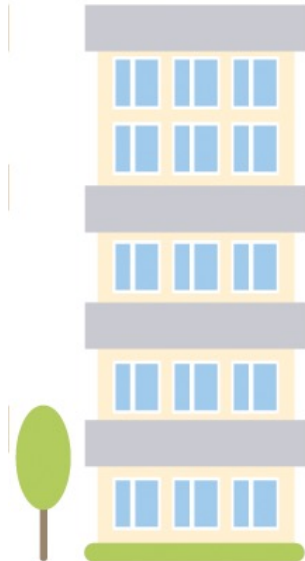

DEPLOYMENT SCENARIOS

GXV Series

High-Volume Business Users

By providing a powerful all-in-one desktop productivity solution with a sleek design, the GXV Series are ideal for executives, receptionists, sales teams and more.

Apartments and Condos

The GXV Series are ideal for residential complexes as they can be paired with the GDS Series to provide a secure door entry and video intercom solution.

Schools

Managing access and monitoring school grounds has never been more important. When paired with the GDS Series and GSC series, the GXV Series becomes a central part of a school security solution.

Medical

Create a powerful tele-medicine experience with the GXV Series. They provide the flexibility to support any SIP or Android video platform, offering a flexible and customizable desktop tele-med solution.

Thank You!
