

# New Product Launch!

## Grandstream's New Advanced Video Collaboration Solution and Extension Module are Now Available

Grandstream has released the new GXV3350 high-end video phone which combines a multi-platform video collaboration solution with a 16-line IP phone and the functionality of an Android tablet to offer an all-in-one desktop communication solution. Additionally, Grandstream today released the GBX20 Extension Module, which is compatible with both the GXV3350 and GRP2615 to help busy workers handle more calls. It is the ideal desktop device for busy professionals, executives, receptionists and more.
