

IPVideoTalk Web Meetings

Grandstream Web & Video Conferencing Platform

IPVideoTalk

Video, Audio and Web Conferencing Service

What is it?

- Grandstream's hosted video, audio and web conferencing service that allows users to join meetings from anywhere
- WebRTC based platform features 1-click meeting joining from Chrome, Firefox and Opera browsers (plug-in for Safari and internet explorer)
- Join meetings from a PC, Mac, Android or iOS device
- Also available as a hosted service to be used with Grandstream's GVC3200 and GVC3202 video conferencing hardware

IPVideoTalk Web Meetings – Free Personal Plan

IPVideoTalk offers a free Personal Web Meetings plan – the first web meetings plan prior to the expanded plans due later this year

The plan includes:

- 3 video feeds
- 3 participants (standard meeting)
- 50 participants for webinar meeting (trial)
- 720p HD video resolution
- 2-way video
- Screen sharing
- Free Android and iOS apps
- 1-click, WebRTC powered meetings
- Maximum meeting time – 60 minutes

Why IPVideoTalk?

General Advantages: Functionality

- **One click meeting joining** using a WebRTC-capable browser
- **HD 720p Video**
- **HD Audio**
- **Screen Sharing** via browser or IPVideoTalk app
- **Join with or without hardware** – options to use IPVideoTalk Web Meetings, or Room System plans based on their needs
- **Webinar Features** – always included without the need for additional fees or add-ons

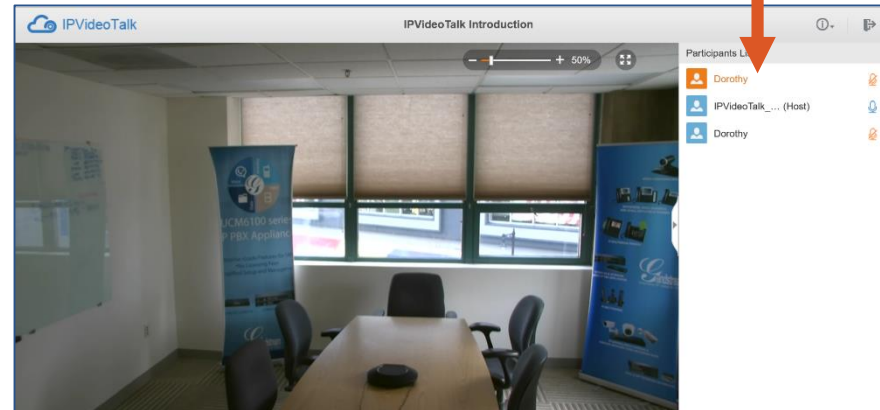

Join Meetings in 1-Click

- Join a meeting in 1-click when using a WebRTC capable browser
- Supported via Firefox, Chrome and Opera browsers (Safari and Internet Explorer browsers require a plug-in)
- Compatible on both PC and Mac computers

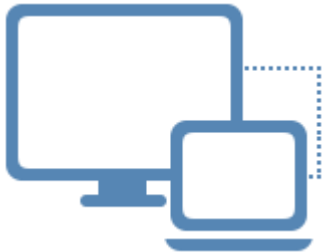

Join A Meeting

Screen Sharing

- Present and collaborate by sharing your screen with meeting participants
- Screen sharing is available from any browser or through the IPVideoTalk app for Android and iOS

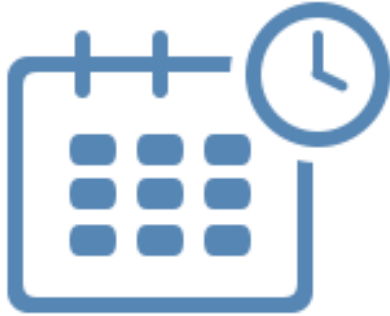

Full HD Video Quality

- Hold more efficient and productive meetings with high-quality video
- 720p HD video resolution for attendees
- Flexible resolution rates to accommodate varying network conditions (Auto, HD and SD)

Password: 0-8 digits

Meeting Reminder: 10 Minutes in Advance

Auto Answer: Yes

Display Attendee List/Status to All Attendees: Yes No, only display it to the meeting host.

2 Way-Video on Google Chrome and Firefox

- 2-way video using WebRTC browsers (Google Chrome, Firefox, Opera)
- Join a meeting from your PC or Mac laptop or desktop computer
- Enjoy up to 720p on most PCs

Easy Accessibility

Connect from anywhere

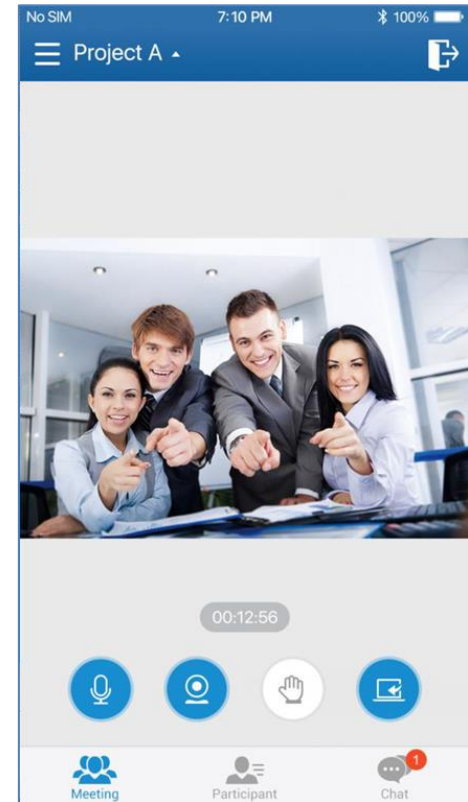

Participate in any meeting from your mobile Android or iOS device.

- HD Voice and Video
- Screen-sharing for enhanced collaboration
- Chat with other meeting participants

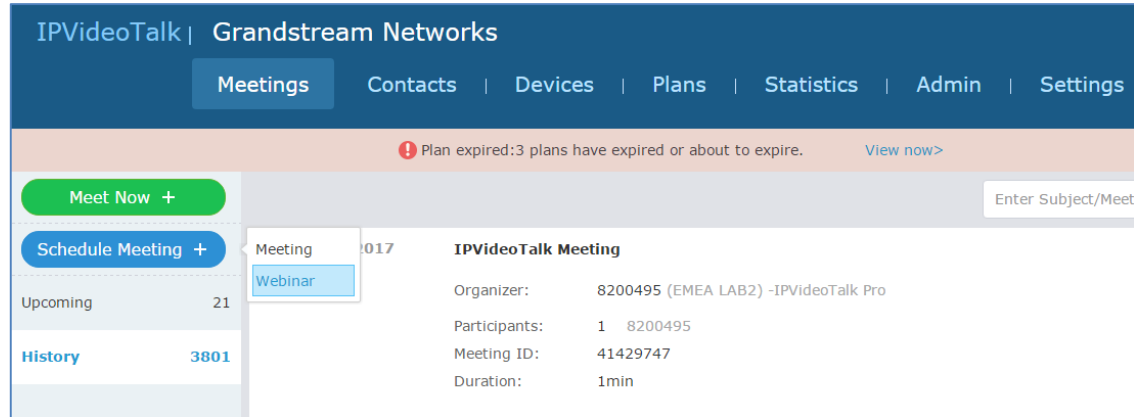

2-Way video support for Mobile App (iOS, Android)

- Available on Google Play and iTunes Store
- Can be used with smart phones or tablets
- Ability to choose which camera to Share (Front, Rear cameras)
- Landscape mode support, and sleek design

Webinar Mode

- Admins can choose between two modes for scheduling: Meeting and Webinar.
- Intuitive design, quick and easy to setup.
- Webinar mode offers both “host” and “panelist” distinctions
- Panelists have more options and control over the webinar (second to the host).

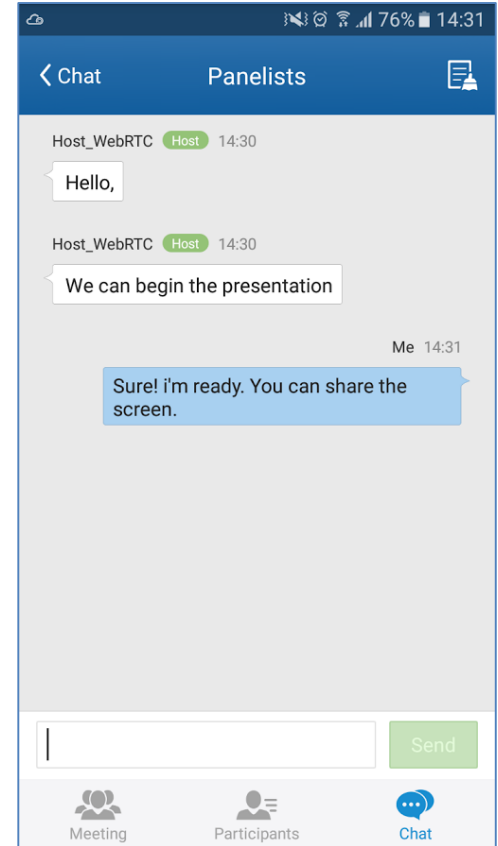

The screenshot displays the IPVideoTalk Grandstream Networks interface. The top navigation bar includes 'Meetings', 'Contacts', 'Devices', 'Plans', 'Statistics', 'Admin', and 'Settings'. A notification banner indicates 'Plan expired: 3 plans have expired or about to expire.' The main content area features a 'Meet Now +' button and a 'Schedule Meeting +' button. A dropdown menu is open over the 'Schedule Meeting +' button, showing 'Meeting' and 'Webinar' options. Below the dropdown, a table lists 'Upcoming' meetings (21) and 'History' (3801). A detailed view for an 'IPVideoTalk Meeting' is shown, including the organizer (8200495 (EMEA LAB2) -IPVideoTalk Pro), participants (1 8200495), meeting ID (41429747), and duration (1min).

Upcoming	21
History	3801

Organizer:	8200495 (EMEA LAB2) -IPVideoTalk Pro
Participants:	1 8200495
Meeting ID:	41429747
Duration:	1min

Webinar Mode-Panelist Role

- Private chat room for Panelists (not visible to standard participants).
- Ability to coordinate between different panelists and hosts.
- Hosts can assign Panelist role to any standard participant during the meeting to gain more options.
- Panelists can control their own audio, video and screen sharing (standard attendees cannot)

Webinar Mode - Multiple Host and Panelist Support

- Ability to have multiple hosts in the same meeting.
- Giving more control and monitoring over the meeting
- More coordination and collaboration between hosts
- Hosts have the highest privilege and control over the meeting (End Meeting, Request Camera Sharing, Muting/Unmuting for a participant, Remove a Participant, Disable/Enable Chat...and more)

The meeting will be started in 6 minutes, please press the "Join" button to initiate meeting.
