GUV3000 & GUV3005

HD USB Headsets with Noise Cancelling Mic

About the GUV3000 & GUV3005

The GUV3000 and GUV3005 are HD USB Headsets that pair with laptops, computers, IP phones and other devices to offer high-quality sound. Ideal for remote workers and busy environments, these USB webcams provide a noise cancellation microphone that minimizes background noise to provide crisp HD audio. The GUV3000 and GUV3005 provide all day comfort thanks to adjustable headbands and soft ear cushions while audio is easily adjusted using the in-line controls.

Product Positioning

The GUV series is ideal for remote workers, students, teachers, call centers, receptionists, sales teams and more. They are built for compatability and offer peace-of-mind supporting all major third-party communication platforms, apps and softphones as well as Grandstream's IPVideoTalk Meetings and Wave app. The GUV series is compatible with any device that offers a USB connection, including laptops, computers & Grandstream IP phones.

GUV series: Everything a Remote Worker Needs

Ideal for Any Remote Worker

As remote work increases, many businesses have adopted cloud- or web-based UC platforms. These platforms, including Microsoft Teams, Google, Slack, Zoom, Grandstream's IPVideoTalk service and Wave app, require remote workers to simply plug a USB headset and/or webcam into a laptop. Their laptop then becomes their desk phone, web meeting platform, video conferencing solution and messaging app. The GUV series offer easy-to-use yet powerful USB headsets and webcams compatible with any collaboration platform, computer and laptop - ideal for remote workers.

Built for Compatibility

The GUV series offers peace-of-mind by being compatible with all major platforms, including Microsoft Teams, Zoom, Slack, Google, Cisco, 3CX, Grandstream's IPVideoTalk, Wave app & much more

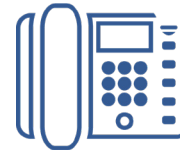

Plug 'n' Play

No settings to adjust – just plug any GUV series device into a USB port and collaborate.

HD Audio and Video

The GUV series headsets support numerous HD audio codecs, while the GUV3100 offers both HD audio (built-in speaker) and 1080p HD video to ensure the highest quality of communicating.

Use with IP Phones

The GUV3000 series Headsets are compatible with Grandstream IP Phones that have USB port (*most GRP series models, all GXV series IP Video Phones, all GXP1700 and GXP2100 series models.*)

Bundles for Remote Workers, Students and Staff

Many organizations are providing remote workers, staff, students and teachers with all of the devices they will need to effectively work and attend class from home. Headsets and webcams are the most useful devices for remote work, and therefore make up the core of an effective work-from-home bundle.

GUV series - Customer Summary

Business / Enterprise

Provide remote workers with the tools they need to communicate & collaborate.

Education

Provide students and teachers with easy-to-use tools to attend school from home.

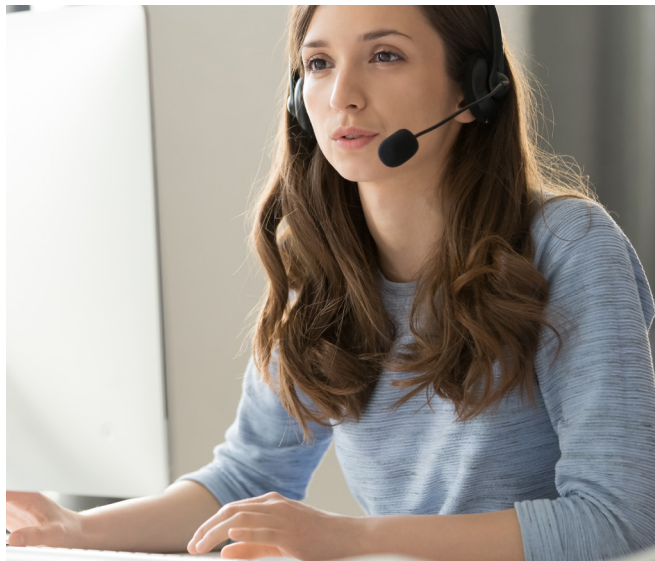

Healthcare

As telehealth continues to grow, healthcare needs tools to utilize this growing trend.

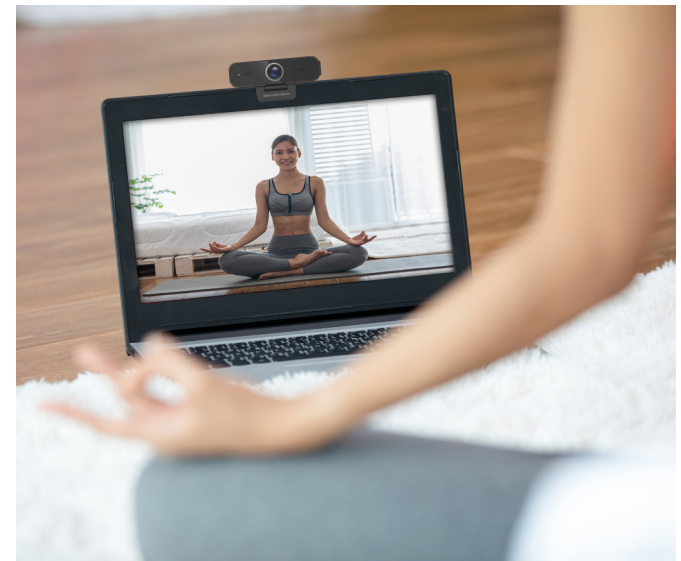

Government

As governments adjust to remote work, headsets and webcams are most in demand.

Call Centers / Customer Service

Whether in the office or remote, agents need headsets and webcams to be successful.

Fitness & Personal Training

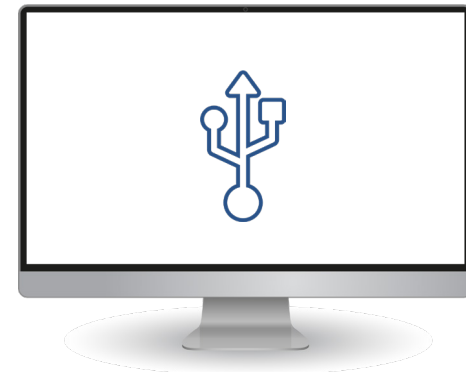

As many fitness classes move to online or streaming models, webcams are in demand.
