# GUV3100

## HD USB WEBCAM

The GUV3100 is the perfect solution for remote education. Most built-in cameras on laptops have poor quality, but the GUV webcam provides a high-quality video source for both students and educators, allowing for seamless class time with minimal distractions. This webcam supports 1080p Full HD real-time video through a 2 megapixel CMOS image sensor and includes 2 built-in omni-directional microphones with 1+ meter voice pickup for clear communications. The GUV series is compatible with all major third-party communication platforms, apps and softphones as well as Grandstream's IPVideoTalk Meetings and Wave app, making this ideal for any school system.

### 1080P Full HD Video

Crystal clear video for students and teachers during class time for seamless communication

### Clear Audio

2 built-in microphones and 1+ meter pickup range. When paired with GUV headsets, the perfect noise-cancelling setup for minimal distractions

### Plug & Play

USB 2.0 port offers plug & play setup, no software download or installation needed

## Remote Learning Just Got Easier

Let Grandstream's GUV solutions help you provide a better learning experience for both students and educators this school year!
